Y. K Üyesi

Dr. Rodolphe de Borchgrave, a Belgian born (1941) and living in Brussels, was Chief Executive Partner of Arcadia International eeig, a network of European experts in the food chain and life-science industries. He is also Managing Director of Cadmos sa, a Brussels based management consultancy .

As a senior management consultant Rodolphe specialises in agro-food since over 20 years. His sector experience spans the entire food chain, including agricultural inputs, agriculture, transformation and distribution.

He successfully assisted industrial companies throughout the entire agro-food supply. He is also very much involved in the regulatory aspects of business, in particular food safety. He regularly advises the European Commission on key policy issues.

Prior to founding Cadmos and Arcadia , he held senior management positions with reputable international consultancies, such as AT Kearney and Price Waterhouse.

He obtained a PhD in physical -chemistry at the University of Louvain (Belgium), followed by a post-doctorate fellowship at the University of Minnesota (US) . He attended the General Management Programme at INSEAD (France). He was Professor at the College of Europe (Belgium) and lecturer at the HEC High School for Commerce, in Liège (Belgium).
